

ST ANDREWS

Understanding Lives Here

Set within two acres of landscaped parkland and overlooking the manicured fairways of the Golf Club, St Andrews is a purpose-built home designed across three floors to provide both residential and dedicated dementia care. Its beautiful surroundings and convenient location offer a peaceful and reassuring setting.

Our Approach

We provide flexible, high-quality care shaped entirely around the individual, from long-term residential and dementia care to short-term respite support.

As a family-run organisation with a family-focused ethos, we create warm, supportive environments where every person feels valued and understood.

Our dedicated teams deliver care through a truly person-centred approach, recognising each individual's life story, preferences, and unique background.

Guided by our Rose Model, commitment, connection, and compassion are at the heart of everything we do.

"We had to find a suitable care home for our mum, who is in the early stages of dementia. St Andrews has proven to be the perfect choice. The staff are warm and welcoming. They have always been very supportive to Mum, and incredibly patient. They will always make themselves available to you if needed. They are always encouraging Mum to attend some of the daily events on offer. We know Mum is safe and well looked after." - Fiona F (Daughter of Resident)

A Fulfilling Life

Everything we do is always person-centred, designed to support independence and enrich everyday life. We take time to truly get to know each resident, their stories, hobbies, personal preferences and culture, so they can continue doing what they love while also trying new things.

Our dedicated Engagement Leads create varied social calendars with meaningful activities, entertainment, and events designed to bring joy and purpose. Whether shared in a group or enjoyed one-to-one, each experience is shaped around the individual.

We maintain strong local links, and always welcome family and friends into the home, helping residents stay connected and feel a genuine sense of belonging within the wider community.

Dining Experience

We believe that feeling good starts with what we eat and drink. Our chefs prepare delicious, nutritionally balanced meals that cater to all tastes and dietary needs. Residents can be included in menu planning, ensuring every meal feels personal.

Meals can be enjoyed in our welcoming dining rooms, privately in a resident's own space, or outdoors in warmer months. Private dining is also available for special occasions, with refreshments and snacks always on hand.

Our comprehensive training ensures meals are thoughtfully prepared and served so that everyone can enjoy dining as independently as possible.

Amenities

Our home offers a wide range of thoughtfully designed spaces for residents to enjoy, with age-related research in mind.

All of these amenities are fully included within your fees, along with dining, laundry, and personalised care. Everything you need to feel completely at home, with no hidden costs.

Our Care

Residential

Long-term, person-centred care that offers comfort, safety, and independence.

Respite

Our short-term stays are perfect for recovery and relaxation, whether it's weeks or months.

Dementia

Specialist care guided by our Rose Model, ensuring the highest levels of support and understanding.

Complex Dementia Care

Complex dementia care is designed and staffed to support residents who may experience significant behavioural changes, high levels of anxiety, or complex physical and emotional needs linked to dementia progression.
